State	Bill	Status	Category	Summary	Sponsor
AL	SB 73	Signed by Governor	Pharmacy Benefit Manager	This measure prohibits pharmacy benefit managers (PBMs) from restricting pharmacies and pharmacists from disclosing cost information to patients about alternative drugs or other services and costs. This measure also requires PBMs to register with the Department of Insurance.	Sen. Arthur Orr (R)
AZ	HB 2166	Signed by Governor (Chapter 75)	Coupons	This measure requires that when calculating an insured's contribution to any applicable cost-sharing requirement, an insurer or pharmacy benefit manager must include any cost-sharing amount paid by either the enrollee or another person on behalf of the enrollee for a drug that is without a generic equivalent.	Rep. Nancy Barto (R)
AZ	HB 2285	Signed by Governor	Pharmacy Benefit Manager		Rep. Regina Cobb (R)
AR	HB 1269	Signed by governor (Act 637)	Other	This measure allows pharmacists to make biological product substitutions when there will be cost savings for the patient. The pharmacist must disclose the amount of the savings at the request of the patient.	Rep. Steve Magie (D)
				This measure requires a pharmacy benefit manager (PBM) to report rebate information to the Insurance Commissioner on a quarterly basis. This bill also prohibits a PBM from conducting "spread pricing" in the state. Under this bill, spread pricing applies to prescription drug pricing in which the PBM charges a plan a contracted price for prescription drugs, and the contracted price for the drugs differs from the amount the PBM directly or indirectly pays the pharmacist.	
AR	SB 520	Signed by governor (Act 994)	Pharmacy Benefit Manager	This measure also requires a PBM to provide an appeal procedure to allow pharmacies to challenge maximum allowable cost list and reimbursements made under a maximum allowable cost list for a specific drug or drug as being an amount less than the current approved fee for the fee-for-service Arkansas Medicaid program-covered outpatient prescription drug reimbursement that includes an ingredient cost for the drug.	Sen. Kim Hammer (R)
CA	ACR 105	Adopted in Assembly; referred to Senate Health Committee	Volume Purchasing	This is a resolution that encourages the governor to engage with Washington and Oregon and others who wish to partner with California to lower prescription drug prices across the country.	Asm. David Chiu (D)
CA	AB 824	Signed by Governor	Other	This bill provides that an agreement resolving or settling a patent infringement claim, in connection with the sale of a pharmaceutical product, is to be presumed to have anticompetitive effects if a non-reference drug filer receives anything of value from another company asserting patent infringement, and if the non-reference drug filer agrees to limit or forego research, development, manufacturing, marketing or sales of the non-reference drug filer's product for any period of time.	Asm. Jim Wood (D)
со	SB 5	Signed by Governor	Importation	incompation of accompation who are continuous destructions from Council for sole to Colored consequences.	Sen. Robert Rodriguez (D), Rep. Sonya Jaquez Lewis (D)
со	HB 1131	Signed by Governor	Transparency	This measure requires a drug manufacturer or a representative of a manufacturer to provide the wholesale acquisition cost of a prescription drug to an entity or individual with whom the manufacturer or wholesale is sharing information about the drug.	Rep. Sonya Jaquez Lewis (D)
со	HB 1216	Signed by Governor	Other	This measure caps the cost sharing a covered person is required to pay for prescription insulin drugs to \$100 per one-month supply of insulin. The bill requires the Department of Law to investigate the pricing of prescription insulin drugs and submit a report of its finding.	Rep. Dylan Roberts (D)
	НВ 1296	Laid over in House	Transparency	This measure requires health insurers to submit information to the Insurance Commissioner about prescription drugs covered under their health insurance plan and paid for in the preceding calendar year, including information about rebates from manufacturers. This bill also requires reporting from manufacturers for drugs that cost \$100 for a course of therapy and have increased in price by 10% over the course of a year or 16% over two years, or a drug that is considered essential and has increased by the same amounts. Under this bill, pharmacy benefit managers (PBMs) will also have to report information regarding rebates. This bill also requires an insurance carrier to reduce the cost sharing an enrollee is required to pay for a prescription drug by an amount equal to the greater of 51% of the average aggregate rebates received by the carrier for all prescription drugs, or an amount that ensures cost sharing will not exceed 125% of the carrier's cost for the drug.	Pan Dominique Jackson (D)
со		Appropriations Committee	Transparency	Finally, this bill prohibits PBMs from retroactively reducing payments on a clean claim submitted by a pharmacy. This measure allows the Department of Consumer Protection to import prescription drugs on a wholesale basis from Canada	Rep. Dominique Jackson (D)
СТ	HB 6862	Failed upon adjournment	Importation	to provide consumers with a cost-saving alternative for prescription drugs.	Rep. Michelle Cook (D)

				This bill establishes the Maine Prescription Drug Affordability Review Board. The board is made up of five members and has	
				a 12-member advisory council. The board may recommend that a public payer pay an annual assessment to support the	
				administrative costs of the board. Beginning in 2021, the board will determine annual spending targets for prescription	
				drugs purchased by public payers based on a 10-year rolling average of the medical care services component of the	
				Consumer Price Index plus a reasonable percentage for inflation and minus a spending target determined by the board for	
				pharmacy savings. The board will also have the authority to determine spending targets on specific drugs that may cause	
				affordability challenges to enrollees in a public plan. The board will determine methods for a public payer to meet spending	
				targets established by the board and must determine if the following methods would reduce costs to individuals purchasing	
				drugs through a public payer: negotiating specific rebate amounts on drugs that contribute most to spending that exceeds	
				the targets; changing a formulary when sufficient rebates cannot be secured; changing a formulary with respect to all of the	
				prescription drugs of a manufacturer within a formulary when sufficient rebates cannot be secured; establishing a common	
				formulary for all public payers; prohibiting health insurance carriers from offering on their formularies a drug by a	
				manufacturer when methods to change a formulary are implemented; bulk purchasing through a single purchasing	
				agreement; collaborating with other states and consortia to purchasing in bulk or to jointly negotiate rebates; allowing	
				insurance carriers providing coverage to small businesses and individuals to participate in the public payer prescription drug	
			Cost Review (Rate	benefit for a fee, and, procuring common expert services for public pavers, including PBM services. The board must report	
ME	LD 1499	Signed by Governor	Setting)	its recommendations, including spending targets, by Oct. 1, 2020	Sen. Troy Jackson (D)
	1			This measure ensures that a pharmacy benefits manager (PBM) has a fiduciary duty to a carrier client. This measure	
				prohibits PBMs from penalizing pharmacies or pharmacists for disclosing cost information to consumers. This bill also	
				prohibits a carrier or PBM from requiring a consumer to make an excessive payment at the point of sale for a covered	
				prescription drug. Under this bill, any compensation remitted by a manufacturer and retained by the PBM must be used by	
				the carrier to lower premium costs or remitted directly to the covered person at the point of sale to reduce out-of-pocket	
			Pharmacy Benefit	costs. Additionally, if a carrier uses any PBM to administer or manage drug benefits, this bill provides that any PBM

				maximum allowable cost lists.	
				This measure requires the Health Policy Commission to decide whether to review a prescription if, based on information	
				submitted by manufacturers, a drug could lead to an entity increase expenditures above the health care cost growth	
				benchmark or if it would could create challenges to the affordability of health care in the state. A brand name drug or	
				biologic can be reviewed if the product has a launch cost of \$30,000 or more or a wholesale acquisition cost (WAC) of \$3,000	
				or more. A biosimilar can be reviewed if the launch WAC is not at least 15% lower than the referenced brand biologic. Generic drugs can be reviewed if there is a price increase that results in an increase in the WAC that is equal to 200% or	
				more over a year and the WAC is at least \$100. The review will determine if the commission will set an upper payment limit	
				on the drug. This measure also requires manufacturers to give 60 days' notice prior to a WAC increase of 10% or more for a	
				drug that costs over \$40.	
				urug mat costs over \$40.	
				This measure also requires a study of the impact of pharmaceutical manufacturing company pricing factors and	
				methodologies and the pharmacy benefit manager (PBM) business model. The top 20 selling drugs in the state will be	
				studied. The Center for Health Information and Analysis will also require PBMs to submit information regarding rebates.	
				This measure also requires the Secretary of Health and Human Services to set a pharmaceutical spending target pursuant to	
				supplemental rebate cost containment. Under this bill, the secretary may directly negotiate supplemental rebate	
		Referred to Joint Health Care		agreements with manufacturers. If a manufacturer and the secretary cannot establish a supplemental rebate agreement, the	
		Financing		secretary can require the manufacturer to disclose records relating to the pricing of the drug under consideration. If the	
		Committee/Referred to Joint		secretary deems the manufacturer's price excessive, the secretary can impose a penalty on the manufacturer.	
		Health Care Financing	Cost Review (Rate		Rep. Christine Barber (D),
MA	H 1133/S 706	Committee	Setting)	This measure requires PBMs to obtain a license and establishes a fiduciary duty to health benefit plans.	Sen. Jason Lewis (D)
				This measure requires the Center for Health Information and Analysis to annually prepare a list of at least 10 outpatient	
				drugs that the center determines account for a significant share of state health care spending. The manufacturer of a drug	
				on the list must provide an explanation of the increase and aggregate, company-level research and development costs.	
				This measure also requires pharmacies to post notices informing consumers that they can request the current pharmacy	
				retail price for prescription drugs at the point of sale. If the consumer's cost-sharing amount for the drug exceeds the retail	
				price, the pharmacist will charge the consumer the applicable cost-sharing amount or the current retail price. Additionally,	
		Referred to Joint Health Care		this bill prohibits a pharmacy benefit manager (PBM) from preventing pharmacists from disclosing cost information to a

				This is the section of the section o	
				This is the conference committee version of the governor's budget proposal. Under this bill, the Executive Office of Health	
				and Human services may directly negotiate supplemental rebate agreements (SRAs) with manufacturers for drugs covered	
				by MassHealth. Negotiations may be based on value, efficacy, or outcomes of a drug. Before seeking an SRA with a	
				manufacturer, the executive office must consider a drug's actual cost to the state and whether the manufacturer is providing	
				significant discounts relative to other drugs covered by MassHealth.	
				If the executive office and the manufacturer cannot conclude negotiations for an SRA and the drug is projected to exceed a	
				cost of \$25,000 per person per year or an aggregate annual cost to MassHealth of \$10 million, the executive office may	
				identify a proposed value of the drug. The executive office must consider a variety of factors when determining the	
				proposed SRA or proposed value. There will be a public hearing in which the manufacturer can provide testimony. After the	
				hearing, the executive office can make any updates to the proposed value or can engage in additional negotiations with the	
				manufacturer. If, after this process, the manufacturer and executive office are unable to conclude negotiations, the	
				Secretary of Health and Human Services will refer to manufacturer to the Health Policy Commission for review.	
				The Health Policy Commission can then require a manufacturer of a specific drug to disclose drug pricing information,	
				including a schedule of the drug's wholesale acquisition cost (WAC) over the past five years. Based on the information	
				submitted, the commission may identify a proposed supplemental rebate for that drug. The proposed supplemental rebate	
				may be based on a proposed value of the drug. If, after review of any records furnished to the commission, the commission	
				determines that the manufacturer's pricing of the drug is potentially unreasonable or excessive in relation to the	
				commission's proposed value, the commission must request the manufacturer provide additional drug pricing information	
				and the manufacturer's justification for that pricing. This measure requires the commission to base its determination solely	
				on the analysis or research of an outside third party. Each year, the executive office will report on the amount of	
				supplemental rebates received under this law, the number of drugs receiving a supplemental rebate under this law, and a	
				breakdown of the duration of the supplemental rebates received.	
				are contained and contained and present and according to

		Substituted for S. 2397; referred to House		This measure authorizes the Health Policy Commission (HPC) to review drug costs that could have a significant impact on consumers. Drugs eligible for review are brand-name drugs or biologics that have a launch wholesale acquisition cost (WAC) of \$50,000 or more for a one-year supply or biosimilar drugs that have a launch WAC that is not at least 15% lower than the referenced brand biologic. Public health essential drugs with a WAC of more than \$25,000 for a one-year supply are also eligible for HPC review. The HPC can require a manufacturer to disclose pricing information in order to review a drug's cost. If, after reviewing a drug, the HPC can require a manufacturer to disclose pricing information in order to review a drug's cost. If, after reviewing a drug, the HPC can require a manufacturer to disclose pricing information in order to review a drug's cost. If, after reviewing a drug, the HPC date mitting the drug's cost in order to improve access. The HPC can issue recommendations on ways to reduce the cost of the drug, including an alternative payment plan or methodology, a bulk purchasing program, cost-sharing restrictions, and a reinsurance program to subsidize the cost of the drug. If the HPC determines the pricing of a drug exceeds the proposed value, the HPC must request that the manufacturer provide additional information related to the pricing of the drug. The HPC will then determine whether the pricing exceeds the HPC's proposed value. If it does, the HPC will notify the manufacturer and requires the manufacturer into access improvement plan. The plan must be generated by the manufacturer, identify the reasons for the drug's price and include specific strategies, adjustments and action steps the manufacturer proposes to address the cost of the drug in order to improve access. The timetable for an access improvement plan cannot exceed 18 months. The HPC will approve any plan that is likely to address the cost so that patient access improvement plan cannot exceed 18 months. The HPC will approve any pl

OR OR OR	HB 2689 HB 2690 HB 2696	Failed upon adjournment Failed upon adjournment Failed upon adjournment Failed upon adjournment	Volume Purchasing Pharmacy Benefit Managers Cost Review (Rate Setting) Other	or territories to bulk purchase prescription drugs. This measure allows the administrator of the Oregon Prescription Drug Program to require pharmacies to maintain or allocate separate inventories for prescription drugs dispensed through the program only as necessary to enter into or carry out an agreement for the bulk purchasing of prescription drugs. This measure establishes the right of a consumer to be educated about ways to reduce the cost of prescription drugs and prevents insurers and pharmacy benefit managers (PBM) from interfering with that right. This measure also requires insurers and PBMs to apply the price paid by a consumer for a drug toward the deductible or out-of-pocket maximum regardless of whether the consumer used pharmacy benefits to purchase the drug. This measure establishes the Drug Cost Review Commission to determine excess costs of brand-name drugs that have increased in wholesale acquisition cost (WAC) more than 10% or \$3,000 in a 12-month period, or drugs that will be introduced to the market with a WAC of \$30,000 or more. This measure also requires manufacturers to notify the commission if a generic drug's WAC will increase by more than 25% or \$300 or if a brand-name drug's WAC will increase by 25% or \$10,000. Notice must be given at least 30 days prior to a planned increase. Manufacturers must provide justification for these increases. If the commission finds the cost of a drug will result in excess costs for payers, the commission must establish the maximum payment rate. This measure requires health carriers to offer, in at least 25% of health benefit plans at each coverage level, that there be no deductible or other cost-sharing requirement other than a flat dollar copayment.
