State	Bill	Status	Category	Summary	Sponsor
AL	SB 236/HB 345	Referred to Senate Banking and Insurance Committee; referred to House Insurance Committee	Pharmacy Benefit Manager	Inis measure prohibits pharmacy benefit managers (PBMs) and health benefit plans from transferring and sharing certain patient information with affiliates of the PBM for purposes of steering or referring a patient toward using a specific pharmacy. This measure also prohibits a health benefit plan from requiring an insured to obtain pharmacist services exclusively from a mail-order pharmaceutical distributor or affiliated pharmacy. This bill also requires PBMs to report annually to clients information on pharmacy manufacturer rebates they received.	Sen. Tom Butler (R), Rep. Ronald Johnson (R)
AZ	SB 1387	Referred to Senate Rules Committee	Cost Review (Rate Setting)	This measure establishes the Prescription Drug Affordability Board, which will access pricing information for prescription drugs by entering into a memorandum of understanding with another state to which manufacturers already report pricing information. The board will identify: (1) brand drugs that have either a launch wholesale acquisition cost (WAC) of \$30,000 or more or a WAC increase of \$3,000 or more in a year; (2) biosimilars that have a launch WAC that is not at least 15% lower than the referenced brand biologic; and (3) generics that have a WAC of \$100 or more or that increased by 200% or more during the past 12 months. The board will determine whether to conduct an affordability review for each identified product. If the board finds that the cost of a drug has led or will lead to an affordability challenge, the board must establish an upper-payment limit that will apply to all purchases and payer reimbursements. This measure also establishes the prescription drug affordability fund consisting of assessments on all manufacturers. The board will annually assess each manufacturer on the manufacturer's relative share of gross revenues from drug sales in the state. This measure requires the pepartment of nearth services to compile a instor essential diabetes drugs and the wholesale acquisition cost (WAC) of each drug on the list. The department must also compile a separate list that details which essential diabetes drugs have been	Sen. Juan Mendez (D)
AZ	SB 1549	Introduced	Transparency	subject to an increase in WAC by a percentage that is equal to or greater than the percentage increase in the consumer price index in the preceding year or twice the percentage increase in the consumer price index during the preceding two years. Any manufacturers with drugs on these lists must submit a report to the department that contains pricing information. Manufacturers with drugs on the second list will be required to submit a justification for their price increases. This measure also requires pharmacy benefit managers to submit rebate information for drugs included on the manufacturer lists.	Sen. Rebecca Rios (D)
					, ,
AZ	SB 1600	Introduced Adopted in Assembly;	Importation	This measure requires the Department of Health Services to design a wholesale importation program that complies with federal law.	Sen. Rebecca Rios (D)
CA	ACR 105	referred to Senate Health Committee	Volume Purchasing	This is a resolution that encourages the governor to engage with Washington and Oregon and others who wish to partner with California to lower prescription drug prices across the country.	Asm. David Chiu (D)
CA	AB 2203	Amended; Referred to Senate Health Committee	Coupons/Cost Sharing	This measure extends the existing \$100 per month cost sharing limit for insulin to Jan. 1, 2024. This bill authorizes the attorney general to investigate the pricing of prescription insulin drugs to ensure adequate pricing protections for consumers. It also authorizes the attorney general to issue and make publicly available a report detailing its finding from any insulin pricing investigations.	Asm. Adrin Nazarian (D)
CA	SB 852	Signed by Governor	Other	This measure requires the California Health and Human Services Agency (CHHSA) to enter into partnerships to produce or distribute generic prescription drugs and at least one form of insulin. CHHSA must submit a report to the Legislature on or before July 1, 2023, that assesses the feasibility and advantages of directly manufacturing generic drugs targeted for manufacture.	Sen. Richard Pan (D)
со	HB 1078	Signed by Governor	Pharmacy Benefit Manager	1	Rep. Sonya Jaquez-Lewis (D)

				their health insurance plans, including information about rebates received from prescription drug manufacturers, a certification regarding how rebates were accounted for in insurance premiums, and a list of all pharmacy benefit managers (PBMs) with whom they contract. Insurers will report the top 50 drugs for which they paid, the 50 costliest drugs, the 50 drugs that had the highest increase in total annual plan spending, the 50 drugs that caused the greatest increase in premiums, the top 50 most frequently prescribed drugs, and the 50 drugs for which the insurer received the largest rebates.	
				This measure requires prescription drug manufacturers to notify the commissioner, state purchasers, health insurers, PBMs, pharmacies and hospitals when the manufacturer increases the price of certain drugs more than specified amounts or introduces a new specialty drug in the commercial market. Manufacturers must report drugs with a price of more than \$50 if the increase is 10% or more in a year, 16% or more over two years, or 20% or more over three years. For drugs that meet these thresholds, manufacturers will be required to submit pricing information.	
				This measure requires PBMs to annually report specified information to the commissioner regarding rebates and administrative fees received from manufacturers.	
		Amended; passed House		This measure also requires certain nonprofit organizations to compile and submit to the commissioner an annual report indicating the	
		Appropriations		amount of each payment, donation, subsidy, or thing of value received by the organization from a drug manufacturer, health insurer, or	Rep. Dominique Jackson
со н	HB 1160	Committee	Transparency	PBM.	(D)
				This measure prohibits health insurers and pharmacy benefit managers (PBMs) from using misleading advertisements, charging a pharmacy a fee for adjudicating a claim, reimbursing an independent pharmacy less than an affiliate, and modifying their drug formulary at any time during the benefit year.	
				This measure also requires insurers and PBMs to submit their programs for compensating pharmacies and their formularies to the Insurance Commissioner. This bill requires PBMs to report to the commissioner the amount the PBM expects to receive from the carrier	
				for pharmacist services that are eligible for reimbursement under the health benefit plan. The commissioner can review this information to ensure reimbursement is fair and reasonable.	
		House Health and Insurance Committee	Pharmacy	Under the bill, a carrier or PBM must submit an annual report with information detailing the amount they actually paid to the pharmacy, the amount the PBM receive from the carrier for pharmacist services, and the amount of rebates the carrier or PBM received.	
со н	HB 1198	postponed indefinitely	Benefit Manager	This measure requires carriers that use PBMs to ensure that their PBMs comply with the requirements in the bill.	Rep. Lois Landgraf (R)
		Amended; passed Senate		analyze, and report prescription drug production cost data regarding the 20 highest-cost prescription drugs per course of therapy and the 20 highest-cost prescription drugs by volume that were purchased or paid for by the departments of corrections, human services, personnel, and health care policy and financing during the 2019-2020 fiscal years. Upon receipt of a list of the highest-cost prescription drugs, the department must request from the manufacturers of the drugs on the list information showing the basis for and components of the wholesale acquisition cost (WAC) of each drug on the list. The department must analyze the data received from manufacturers

IL	НВ 156	Referred to Senate Assignments Committee	Transparency	This measure requires health insurers to disclose certain rate and spending information concerning prescription drug pricing information to the Department of Public Health, which in turn must create a list annually of the state's high-spend drugs. This measure also requires drug manufacturers to notify the attorney general when they plan to introduce a new drug at a wholesale acquisition cost that exceeds the threshold set for a specialty drug under the Medicare Part D program. This measure also requires a health insurer to apply the same cost-sharing requirements to interchangeable biological products as apply to generic drugs under the policy. Additionally, this measure instructs pharmacists to select the lowest-priced interchangeable biological product in place of a biologic drug, rather than allowing a pharmacist to substitute only if certain requirements are met. Finally, this bill requires that when a pharmacist receives a prescription from a Medicaid enrollee, the pharmacist must select the preferred drug or biologic from the state's preferred drug list.	Rep. Mary Flowers (D)
		Referred to House Rules		This measure reinstitutes the pharmaceutical assistance program for seniors that was eliminated by Public Act 97-689. The program will

				This measure requires the Department of Healthcare and Family Services to convene the Pharmaceutical Collaborative to coordinate the efforts of state and local government entities to identify and implement opportunities for cost savings with regard to the purchase of pharmaceuticals, particularly high-cost drugs. The collaborative must leverage state and local governmental efficiencies and methodologies to achieve best-value procurement, purchasing, and negotiation with manufacturers for discounts on pharmaceuticals. The collaborative must also develop and adopt a state preferred drug list and explore the possibility of joining other state pharmaceutical purchasing programs in a consortium that is open to other private and public purchasers of pharmaceuticals. The collaborative will also recommend high-cost drugs for cost value review by independent research organizations. This measure allows the department to enter into contracts on a bid or negotiated basis with manufacturers and supplies of single source or multisource pharmaceuticals to obtain from those manufacturers discounts, rebates, or refunds based on quantities purchased.

				This bill requires pharmacy benefit managers (PBMs) to obtain a license from the Department of Insurance. This measure requires that	
KS	НВ 2598	Substituted; passed House Insurance Committee	Pharmacy Benefit Manager	all compensation remitted by, or on behalf of, a pharmaceutical manufacturer to a carrier or to a PBM be remitted directly to the covered person at the point of sale or remitted to and retained by the plan sponsor to lower premiums. This measure also requires PBMs to prepare a quarterly transparency report summarizing data relating to prescription benefits. This measure also prohibits discrimination of 340B-covered entities and the retroactive reduction or denial of a claim. Under this bill, a PBM cannot pay or reimburse a pharmacy in an amount less than the pharmacy's usual and customary price, the national average drug acquisition cost or the pharmacy's wholesale acquisition cost. This bill details maximum allowable cost requirements.	House Insurance Committee
KS	HB 2631	Died in House Appropriations Committee	Pharmacy Benefit Manager	This measure prohibits pharmacy benefit managers (PBM) from disparately treating any pharmacy by imposing terms on such pharmacy that differ from those imposed or required of other pharmacies based solely on such pharmacy's designation as a 340B-covered entity. "Disparate terms" include the exclusion of 340B entities from provider networks, reimbursing 340B-covered entities less than a PBM affiliate, and assessing any fee upon a 340B entity on the basis that the 340B entity participates in the 340B drug pricing program. This measure also prohibits a PBM from collecting from an enrollee any cost-share amount for a drug at the point of sale that exceeds the lesser of the copayment, the amount the enrollee would pay without insurance or the contracted amount for the drug.	House Health and Human Services Committee
KS	HB 2658	Died in House Health and Human Services Committee	Importation	This measure creates a wholesale prescription drug importation that will be administered by the Department of Health and Environment. The department will submit a request an application to the United State Secretary of Health and Human Services by Sept. 1, 2021.	Rep. Jim Ward (D)
кs	SB 438	Failed in Senate Financial Institutions and Insurance Committee	Pharmacy Benefit Manager	This measure replaces the pharmacy benefit manager (PBM) registration requirement with a licensure requirement. This measure also requires PBMs to prepare quarterly reports detailing rebate information. This measure provides that a PBM has a fiduciary duty to a health carrier client and prohibits PBMs from retaining any portion of spread pricing. This bill prohibits a PBM from reimbursing an affiliate pharmacy. This measure also contains maximum allowable cost (MAC) list requirements.	Senate Financial Institutions and Insurance Committee
ку	HB 12/SB 118	Substituted; passed House Health and Family Services Committee/Referred to Senate Banking and Insurance Committee	Coupons/Cost Sharing	This measure caps the cost-sharing price or copay of insulin at \$100 for a 30-day supply.	Rep. Danny Bentley (R)/Sen. Reginald Thomas (D)
ку	HB 72	Referred to House Banking and Insurance Committee	Coupons/Cost Sharing	This measure caps the cost-sharing price of copay of insulin at 3100 for a 30-day supply. This measure requires an insurer to apply financial assistance received by an insurers from an enrollee toward that enrollee's cost-sharing requirements.	Rep. Danny Bentley (R)
ку	НВ 248	Referred to House Health and Family Services Committee	Price Gouging	This measure prohibits drug manufacturers and wholesalers of off-patent or generic prescription drugs from engaging in unrestricted price increases. If a manufacturer raises the price of an essential off-patent or generic drug such that the wholesale acquisition cost increases by 50% or more, and that drug costs more than \$80 for a course of treatment, the Health and Family Services Secretary must report that increase to the attorney general. If a court determines that a manufacturer has engaged in price gouging, the court may require the manufacturer to make the drug available at the price at which the drug was made available to residents prior to the manufacturer's violation. The court can also impose a civil penalty of up to \$10,000 per violation.	Rep. Danny Bentley (R)
		Referred to House Health and Family		been subject to a wholesale acquisition cost (WAC) increase greater than the percentage increase in the consumer price index (CPI) in one year or twice the percentage increase in the CPI over two years. Manufacturers of drugs on these lists must disclose certain cost information, including the cost of producing the drug, the WAC, the total profit the manufacturer has earned from the drug, and the total amount of financial assistance that the manufacture has provided through patient assistance programs. This measure also requires pharmacy benefit managers to submit rebate information. This measure also requires the Health and Family Services Secretary to notify the attorney general of any increase in the price of an essential off-patent or generic drug if the price increase would result in an increase of 50% or more in the WAC of a drug within one year and the drug costs more than \$80 for a 30-day supply. Courts can then determine whether manufacturers have violated this bill and issue an order requiring a manufacturer to make the drug available at a lower price or impose a civil penalty of up to \$10,000 per	
кү	HB 249	Services Committee	Transparency	violation.	Rep. Danny Bentley (R)

			I	Under this bill, an insurers, pharmacy benefit managers (PBM) or any other administrator of pharmacy benefits cannot require an	
				enrollee to pay a cost-sharing amount for pharmacy services that is greater than what was paid by or charged to the patient for the	
1				services at the point of sale, use a mail order pharmaceutical distributor, or pay cost sharing for services received from a nonaffiliated	
				pharmacy that is greater than what would other be imposed if the enrollee used a pharmacy affiliate or a mail-order pharmaceutical	
				distributor. This bill also contains network adequacy requirements for PBMs.	
				This measure prohibits insurers and PBMs from reducing payment for pharmacy services under a reconciliation process to an effective rate or reimbursement, including the use of generic effective rates, dispensing effective rates, brand effective rates, and direct and indirect remuneration fees, and any other mechanism that reduces or aggregately reduces payment for pharmacy services. It also prohibits insurers and PBMs from retroactively reducing or denying a claim or assessing any fees against the pharmacy that are related to a claim for services. This measure additionally prohibits insurers and PBMs from reimbursing a pharmacy less than the amount the insurers or PBM reimburses a pharmacy affiliate. It prohibits PBMs and insurers from reimbursing for the ingredient drug product component of a pharmacy services that is less than the national average drug acquisition cost. Under this bill, a PBM owes a fiduciary duty to the insurer. This bill requires PBMs to monitor the activities carried out in the state on behalf of the insurer. This bill prohibits PBMs from engaging in spread pricing. This measure requires PBMs to submit quarterly reports	
				to the Insurance Commissioner detailing rebate information.

				This measure requires the books of a national to implement an insulin assistance program of some 1, 2021, order the program; the	
				board must reimburse participating pharmacies for insulin products and supplies that are dispensed by the pharmacy to qualified individuals and seek participation in the program by pharmacies in all areas of the state. Pharmacy participation in the program is voluntary. Participating pharmacies will dispense insulin and related supplies to qualified individuals at no cost.	
				The board must develop and make available a financial need form that ensures those who receive insulin do not have the financial	
				means to pay for insulin and that they do not receive health coverage through the state medical assistance program. Qualified	
				individuals are eligible for 90 days and can extend or renew their eligibility for an additional 90. There is no limit on the number of times an individual can extend their eligibility.	
				Under this measure, a manufacturer that delivers or distributes any qualified insulin product must pay an insulin product fee. The fee is \$1.50 per unit.	
ку	SB 23	Referred to Senate Banking and Insurance Committee	Other	Beginning Dec. 1, 2020, a manufacturer or wholesale distributor must provide the board with information about each insulin product it sells in the state, including the wholesale acquisition cost for the product. They must also report every sale, delivery, or other distribution within or into the state of any inulin product made to any practitioner, pharmacy or hospital. The board will then use this data to identify qualified insulin products and prepare invoices for each manufacturer and wholesale distributor that is required to pay an insulin product fee. Manufacturers and wholesale distributors will be required to remit payment to the board. Wholesale distributor and manufacturer licenses will be renewed contingent upon payment of the insulin product fee. All fees collected will be deposited into the insulin assistance fund.	Sen. Phillip Wheeler (R)
				This measure requires the Department for Medicaid Services to ensure coordination of care between the outpatient pharmacy benefits	
				program or a third party administrator (TPA) with which the department contracts. This bill allows the department to contract with a	
				third party on a fee-for-service reimbursement bases for the purpose of administering the pharmacy benefits program for all Medicaid	
				recipients. The department will approve any contract between a TPA, and a TPA cannot change the terms of a contract between the TPA	
				and a pharmacy without approval from the department. This measure prohibits a TPA from creating, modifying implementing or	
			Pharmacy	indirectly establishing any fee on a pharmacy, pharmacist or a Medicaid recipient without approval from the department. Under this bill,

				This measure requires a pharmacy to notify consumers that at the point of sale, they may request the current pharmacy retail price. If a	
	1		Dis a series a series	pharmacist determines that the cost sharing for a prescription exceeds the current retail price, they shall notify the customer of the	
	6 722	C., b. + 12	Pharmacy	pharmacy retail price and the difference between it and the consumer's cost-sharing amount. A pharmacist will charge a customer the	
MA	S 733	Substituted by S 2397	Benefit Manager	applicable cost-sharing or the current pharmacy retail price for that prescription, whichever is less.	Sen. James Welch (D)

				Drugs eligible for review are brand-name drugs or biologics that have a launch WAC of \$50,000 or more for a one-year supply or biosimilar drugs that have a launch WAC that is not at least 15% lower than the referenced brand biologic. Public health essential drugs with a WAC of more than \$25,000 for a one-year supply are also eligible for HPC review. The HPC can require a manufacturer to disclose pricing information in order to review a drug's cost. If, after reviewing a drug, the HPC determines the pricing of the drug does not exceed the proposed value, the HPC must evaluate other ways to mitigate the drug's cost in order to improve access. The HPC can issue recommendations on ways to reduce the cost of the drug, including an alternative payment plan or methodology, a bulk purchasing program, cost-sharing restrictions, and a reinsurance	
				program to subsidize the cost of the drug. If the HPC determines the pricing of a drug exceeds the proposed value, the HPC must request that the manufacturer provide additional information related to the pricing of the drug. The HPC will then determine whether the pricing exceeds the HPC's proposed value. If it does, the HPC will notify the manufacturer and requires the manufacturer enter into access improvement plan. The plan must be generated by the manufacturer, identify the reasons for the drug's price and include specific strategies, adjustments and action steps the manufacturer proposes to address the cost of the drug in order to improve access. The timetable for an access improvement plan cannot exceed 18 months. The HPC will approve any plan that is likely to address the cost so that patient access improves and has a reasonable expectation for successful implementation. After the conclusion of the implementation timetable, a manufacturer must report outcomes to the HPC. If the HPC deems the outcomes insufficient, the HPC will extend the timetable and approve any amendments to the plan.	
				If a manufacturer declines to enter into an improvement plan, the HPC can publicly post the proposed value of the drug, hold a public hearing on the proposed value and solicit public comment. The manufacturer will be required to appear and testify at any hearing held on a drug's proposed value.	
		Substituted for S. 733; passed Senate Ways and Means Committee;		This measure establishes a four-year program to assess the public health utilization and cost impacts of capping copays and eliminating deductibles and co-insurance requirements for insulin. Under this bill, coverage for insulin cannot be subject to any deductible or coinsurance and copays cannot exceed \$25 per month per insulin prescription.	
МА	S 2397	amended; substituted by S. 2409	Other	This measure requires PBMs to obtain a license from the Department of Insurance and requires PBMs to report rebate information to the Center for Health Information and Analysis.	Senate Committee on Ways and Means

				This measure authorizes the Health Policy Commission (HPC) to review drug costs that could have a significant impact on consumers.	
				Drugs eligible for review are brand-name drugs or biologics that have a launch wholesale acquisition cost (WAC) of \$50,000 or more for	
				a one-year supply or biosimilar drugs that have a launch WAC that is not at least 15% lower than the referenced brand biologic. Public	
				health essential drugs with a WAC of more than \$25,000 for a one-year supply are also eligible for HPC review. The HPC can require a	
				manufacturer to disclose pricing information in order to review a drug's cost.	
				If, after reviewing a drug, the HPC determines the pricing of the drug does not exceed the proposed value, the HPC must evaluate other	
				ways to mitigate the drug's cost in order to improve access. The HPC can issue recommendations on ways to reduce the cost of the	
				drug, including an alternative payment plan or methodology, a bulk purchasing program, cost-sharing restrictions, and a reinsurance	
				program to subsidize the cost of the drug.	
				If the HPC determines the pricing of a drug exceeds the proposed value, the HPC must request that the manufacturer provide additional	
				information related to the pricing of the drug. The HPC will then determine whether the pricing exceeds the HPC's proposed value. If it	
				does, the HPC will notify the manufacturer and requires the manufacturer enter into access improvement plan. The plan must be	
				generated by the manufacturer, identify the reasons for the drug's price and include specific strategies, adjustments and action steps	
				the manufacturer proposes to address the cost of the drug in order to improve access. The timetable for an access improvement plan	
				cannot exceed 18 months. The HPC will approve any plan that is likely to address the cost so that patient access improves and has a	
				reasonable expectation for successful implementation. After the conclusion of the implementation timetable, a manufacturer must	
				report outcomes to the HPC. If the HPC deems the outcomes insufficient, the HPC will extend the timetable and approve any	
				amendments to the plan.	
				If a manufacturer declines to enter into an improvement plan, the HPC can publicly post the proposed value of the drug, hold a public	
				hearing on the proposed value, and solicit public comment. The manufacturer will be required to appear and testify at any hearing held	
				on a drug's proposed value.	
				This measure establishes a four-year program to assess the public health utilization and cost impacts of capping copays and eliminating	
				deductibles and co-insurance requirements for insulin. Under this bill, coverage for insulin cannot be subject to any deductible or	
				coinsurance and copays cannot exceed \$25 per month per insulin prescription.	
				This measure requires pharmacy benefit managers (PBMs) to obtain a license from the Department of Insurance and requires PBMs to	
				report rebate information to the Center for Health Information and Analysis.	
		Substituted for S. 2397;		The measure also creates a special commission to examine the feasibility of establishing a system for the bulk purchasing and

	1				
				This measure requires an annual report that details the state's effectiveness in promoting transparency in pharmaceutical pricing for the	
				state and other payers, enhancing the understanding of pharmaceutical spending trends, and assisting the state in the management of	
				pharmaceutical costs. This measure also limits cost-sharing requirements for prescription insulin drugs once the deductible is met.	
				This measure requires the Human Services Commissioner to implement an insulin assistance program. The program will pay	
				participating pharmacies for insulin that is dispensed by a participating pharmacy and maintain an up-to-date list of eligible individuals	
		Became special session		and make the list available to participating pharmacies. Eligible individuals must have a family income that is equal to or less than 400%	Rep. Tina Liebling (D),
MN	HF 2414/SF 2452	SF 12	Transparency	of the federal poverty guidelines and be uninsured or have no prescription drug coverage.	Sen. Michelle Benson (R)
				This measure requires that each manufacturer of a prescription drug that has a wholesale acquisition cost of \$10,000 or more annually	
		Referred to House		must file a report with the Commissioner of Health. The report must include information will include cost information, including	
MN	HF 2518	Commerce Committee	Transparency	marketing and advertising costs.	Rep. Jeremy Munson (R)
				This measure imposes an excess prices tax on prescription drugs. The amount of the tax has not yet been established. Under this bill,	
				manufacturers and wholesalers will annually submit the number of units of each drug sold in the state during the year to the revenue	
		Referred to House Taxes		commissioner. "Excess price amount" means the difference between the manufacturer's adjusted average manufacturer price of a	
MN	HF 2819	Committee	Other	prescription drug and the indexed average manufacturer's price of a drug for a certain year.	Rep. Michael Howard (D)
				urgent need of insulin or who are in need of access to an affordable insulin supply. An insulin product is exempt from this section if the	
				wholesale acquisition cost (WAC) of the insulin is \$8 or less per milliliter. This bill does not apply to manufacturers with an annual gross	
				revenue of \$2 million or less.	
				To be eligible to receive an urgent-need supply of insulin, an individual must not be enrolled in medical assistance or in prescription drug	
				coverage that limits the total amount of cost sharing that the enrollee is required to pay for a 30-day supply to \$75 dollars or less. They	
				must also have not received an urgent-need supply of insulin through this program within the previous year. Under this bill, "urgent	
				need of insulin" means having readily available for use less than a seven-day supply of insulin and in need of insulin in order to avoid the	
				likelihood of suffering significant health consequences. MNsure will develop an application form to be used by an individual who is in	
				urgent need of insulin. If the individual is in urgent need of insulin, the individual can present a completed application form to a	
				pharmacy. The individual must also have a valid prescription and present the pharmacist with identification indicating Minnesota	
				p · · · · · · · · · · · · · · · · · · ·	
				residency. The pharmacist will then dispense the prescribed insulin in a 30-day supply. The pharmacy may submit to the insulin	
				manufacturer a claim for payment, unless the manufacturer agrees to send the pharmacy a replacement supply of the same insulin as	
				dispensed in the amount dispensed. The pharmacy may collect an insulin copayment from the individual to cover the pharmacy's cost of	
				processing and dispensing in an amount not to exceed \$35 for the 30-day supply. The pharmacy must also give the individual	
				information about trained navigators who can help the individual access ongoing insulin coverage options.	
				This bill also establishes a continuing safety net program, under which each manufacturer will make its patient assistance programs	
				available to any individual who has a family income of less than 400% of the federal poverty guidelines and is not enrolled in	
				prescription drug coverage that limits insulin copayments to \$75 or less. Manufacturers are responsible for determining eligibility.	
				Eligibility is valid for 12 months and is renewable upon a redetermination of eligibility. If the eligible individual has a prescription drug	
				coverage through a health plan, the manufacturer may determine that the individual's insulin needs are better addressed through the	
		Conference committee		use of the manufacturer's copayment assistance program. The pharmacy can collect a copayment from the individual that cannot	
		report adopted by both		exceed \$50 each 90-day supply.

				This measure establishes a Drug Cost Review Commission. This measure requires that each pharmacy benefits manager (PBM) must file annually a report with the commission that discloses rebate information and that each. Health carriers must also submit annual reports that detail the 25 most frequently prescribed drugs, the 25 outpatient drugs that the plan covered at the greatest cost and the 25 drugs that experienced the greatest year-over-year increase in cost. Carriers must also submit a certification that they accounted for all rebates in calculating the premium for health benefit plans.	
				This measure also requires drug manufacturers to notify the commission if they have filed a new drug application or biologics/biosimilars application. This bill gives the commission the authority to review each manufacturer of a pipeline drug that may have a significant impact on state expenditures for outpatient drugs.	
				This measure requires brand manufacturers to notify the commission if the wholesale acquisition cost (WAC) is increasing by more than 10% or by more than \$10,000 or if the manufacturer intends to introduce a brand-name drug that has. WAC of \$30,000 per year. Manufacturers of generic or off-patent sole-source brand drugs must notify the commission if the manufacturer is increasing the WAC by more than 25% or by more than \$300 during any 12-month period. All manufacturers must include justifications for price increases that meet these thresholds.	
				Before March 1, 2022, and annually thereafter, the commission must prepare a list of no more than 10 outpatient drugs that the commission determines are provided at substantial cost to the state. To be included on the list, the drug must have increased by at least 20% drug the preceding year or by at least 50% in the precedin+E333g two years. A drug on the list must also cost at least \$60.	
		Referred to House		Under this measure, the public may request commission review of the cost of any drug reported. If the commission finds that the	
		Health and Mental	Cost Review	spending on a drug creates excess costs for carriers or consumers, the commission must establish the level of reimbursement that will

				This bill also establishes a prescription drug affordability board to determine annual public paver spending targets for prescription drugs,	
				develop and implement policies and procedures for the collection of prescription drug price data, implement a register of drug	
				manufacturers for drug pricing data, and establish funding for the board by reasonable user fees and assessments. Negotiating specific	
				rebate amounts, changing formularies, establishing a common prescription drug formulary for all public payers, bulk purchasing, and	
				drug purchasing consortia are all policies the board must consider to meet spending targets. The board will also be required to report	
				the top 25 most frequently prescribed drugs in the state, the 25 costliest drugs, and the 25 drugs with the highest year-over-year cost	
				increases.	
				Under this bill, a manufacturer must notify the board when the manufacturer has increase the wholesale acquisition cost (WAC) of a	
				brand-name drug by more than 20% per pricing unit or a generic drug that costs at least \$10 by more than 20% per pricing unit. They	
				must also notify the board when they introduce a new drug with a WAC that is above the Medicare specialty drug threshold.	
				L

NH	SB 685	Amended; passed Senate Finance Committee		This measure establishes a wholesale prescription drug importation program. This bill also authorizes the commissioner of the Department of Administrative Services to establish the New Hampshire prescription drug competitive marketplace. The marketplace will adopt a reverse auction for PBM procurement, conduct ongoing electronic review and validation of PBM claims, and conduct market checks using technology-driven evaluation of a pharmacy benefit manager's prescription drug pricing based on benchmark comparators.	
				This measure requires a health carrier that contracts with a pharmacy benefit manager (PBM) to ensure that under the contract, the PBM acts as the health carrier's agent and owes a fiduciary duty to the health carrier. This measure prohibits a PBM from requiring a covered person to make a payment at the point of sale for a drug in an amount greater than the least of the applicable cost-sharing amount: the amount the person would pay without using insurance, the total amount the pharmacy will be reimbursed for the drug; or the amount the health carrier or PBM would pay if they paid the full amount of the drug without cost sharing. This measure also requires health carriers and PBMs to use a single maximum allowable cost (MAC) list to establish the maximum amount to be paid by a plan to a pharmacy for a generic or brand-name drug that has at least one generic alternative available. The carrier or PBM must provide a process by which pharmacies can appeal a MAC reimbursement. A health carrier or PBM must also establish the maximum payment for brand-name drugs without generic equivalents. This measure stipulates that in order to use the average wholesale price of a brand-name drug, a carrier or PBM can only use one national drug pricing source during a calendar year. Under this bill, the amount paid by a carrier to a pharmacy will be the ingredient cost plus the dispensing fee minus any cost sharing from an enrollee. The ingredient cost cannot exceed the MAC or average wholesale price. This measure requires that if a carrier uses a PBM, for purposes of calculating a carrier's anticipated loss ratio, any PBM compensation constitutes an administrative cost and cannot be classified as a benefit. Additionally, a carrier can only claim the amount paid by the PBM to a pharmacy as an incurred claim.	
				drug competitive marketplace. The marketplace will adopt a reverse auction for PBM procurement, conduct ongoing electronic review and validation of PBM claims, and conduct market checks using technology-driven evaluation of PBMs' prescription drug pricing based	
NH	SB 686	Died on table		on benchmark comparators.	Sen. Cindy Rosenwald (D)

				Beginning in 2022, the board must identify strategies that optimize spending by public payors for pharmaceutical products while	
				reasonably ensuring subscriber access. The board must determine annual spending targets for drugs purchased by public payers based	
				on a 10-year rolling average of the medical care services component of the Consumer Price Index. The board must determine spending	
				targets on specific drugs that may cause affordability challenges to enrollees in a public payer health plan and which payers are likely to	
				exceed spending targets. The board can consider a payer's drug-spending data when considering targets.	
				The board must determine if the following methods would reduce costs to individuals purchasing drugs through a public payer: (1)	
				negotiating specific rebate amounts on drugs that contribute most to spending that exceeds the targets; (2) changing a formulary when	
				sufficient rebates cannot be secured; (3) establishing a common formulary for all public payers; (4) prohibiting health insurance carriers	
				from offering on their formularies a drug by a manufacturer when methods to change a formulary are implemented; (5) bulk purchasing	
				through a single purchasing agreement; (6) collaborating with other states and consortia to purchase in bulk or to jointly negotiate	
				rebates; (7) allowing insurance carriers providing coverage to small businesses and individuals to participate in the public payor	
				prescription drug benefit for a fee; and (8) procuring common expert services for public payers, including pharmacy benefit manager	
				services.	
				This measure also requires the board to report on annual net spending by public payers, including the 25 most frequently prescribed	
				drugs, the 25 costliest drugs, and the 25 drugs with the highest year-over-year cost increases. Manufacturers must notify the board	
				when, during the prior year, the manufacturer increases the wholesale acquisition cost (WAC) of a brand-name drug by more than 20%	
				per pricing unit or increases the WAC of a generic drug that costs at least \$10 per pricing unit by more than 20% per pricing unit.	
			Cost Review	Manufacturers must also report when they introduce a new drug with a WAC greater than the amount that would cause the drug to be

				This measure establishes the Prescription Drug Affordability Board. The board must identify brand-name drugs that have a launch	
				wholesale acquisition cost (WAC) of \$30,000 or a WAC increase of \$3,000 in a 12-month period, biosimilars that have a launch WAC that	
				is not at least 15% lower than the referenced brand biologic, and generic drugs that have a WAC of \$100 or more and that increased by	
				200% over the preceding 12 months. The board has the authority to review any drugs identified to determine whether they create	
				affordability challenges. If the board finds spending on a drug will lead to an affordability burden, the board must recommend or	
		Referred to House	Cost Review	establish an upper payment limit that will apply to all purchases and payor reimbursements of the drug in the state. The Prescription	
PA	HB 2212	Health Committee	(Rate Setting)	Drug Affordability Stakeholder Group will help the board make determinations.	Rep. Dan Frankel (D)
				This measure prohibits an MCO or pharmacy benefit manager (PBM) from requiring an enrollee to use a specific pharmacy. This bill also	
				prohibits a PBM from retaining a pharmacy spread, or the differential between what is bill to the MCO and what is paid to the	
				pharmacy. MCOs that use a PBM will be required to report information regarding spread pricing to the department.

				Inis bill authorizes the state to establish international reference rates for the 250 most costly drugs in the state. Inis measure requires	
				the board of trustees of the Pennsylvania Employee Benefit Trust Fund to annually compile a list of the 250 most costly drugs based on	
				price and utilization. Health plans and participating ERISA plans will be prohibited from purchasing a drug on the list at a rate that	
				exceeds the referenced rate. The referenced rate is determined by comparing prices in four Canadian provinces and the ceiling price for	
				drugs reported by the Government of Canada Patented Medicine Prices Review Board. The rate for each drug will be the lowest cost	
				among those resources and the wholesale acquisition cost. Any savings generated as a result of reference prices must be used to reduce	
				costs to consumers.	
		Referred to Senate		This measure also prohibits manufacturers and distributors from withdrawing the referenced drug from sale in the state to avoid the	
		Banking and Insurance		impact of rate limitation and requires any manufacturer or distributor that intends to withdraw a drug from sale to provide 180 days'	
PA	SB 1315	Committee	Other	notice to the state attorney general.	Sen. Tom Killion (R)
				This measure requires the identification of 15 prescription drugs for which the state spends significant health care dollars due to an	
				increase in costs and requires the drugs' manufacturers to provide relevant information to justify price increases. Drugs that have	
				increased in price by 50% or more over the past five years, or by 15% or more in the last year, may be added to the list. This measure	
				also instructs the Department of Health to study how other states' Medicaid programs use 340B pricing and the possible benefits of	
				offering 340B pricing to consumers. Additionally, this bill requires the department to convene an advisory commission to develop	
		Deferred to Herre		options for all qualified health benefit plans to be offered for the 2021 plan year, including one or more plans with a higher out-of-

				with reinsurance payments for covered drugs that treat rare diseases. Reinsurance payments will be available for claims for covered	
				drugs paid by an insurer on or after Jan. 1, 2022. An insurer becomes eligible for payment from the reinsurance fund when it pays for	
				one or more covered drugs in a calendar year. An insurer can request reinsurance payments on a calendar year basis. The secretary can	
				establish program elements such as attachment points, coinsurance rates, and/or coinsurance caps, which can be applied in aggregate	
				or per covered drug. In no event will the reinsurance payment to an insurer exceed the total amount paid by the insurer for a covered	
				drug after rebates.	
				This measure stablishes the Rare Disease Medication Reinsurance Fund, as well as a 15-member Rare Disease Advisory Council. The	
				council's job will be to recommend drugs to be covered, an assessment rate, and a funding distribution method.	
				The council can only recommend drugs that are high-cost prescription drugs, gene therapies, or cell therapies designated as orphan	
				drugs by the federal Food and Drug Administration. The council will review and recommend for inclusion medications with the greatest	
				medical efficacy that treat those conditions expected to occur with the lowest frequency. The council will recommend a preliminary	
				funding contribution for each recommended drug in an amount equal to the price for each drug multiplied by the estimated number of	
				treatable cases, divided by the number of contribution enrollees.	
				This bill authorizes the secretary to create a drug pricing plan for covered drugs. When developing the pricing plan, the secretary must	
	1			use and base the price of a covered drug on the current Medicaid price, or can negotiate state-specific prices or participate in multi-state	
	1			pooling. The secretary must also use alternative payment methods, including value-based payments. Manufacturers and distributors of	
				the covered drugs must offer and accept such prices and terms from participating insurers.	
	1			The state of the s	
				Beginning February 2021, the secretary will annually announce the covered drugs and set the rare disease funding contribution. Each	
	1			insurer is required to pay the rare disease medication funding contribution for each contribution an enrollee of the insurer makes at the	
				time the contribution is calculated and paid.	
	1				
	1			An insurer required to make a funding contribution under this bill may pass on the cost of that contribution in the cost of its services,

		Committee/Referred to		This measure caps the total amount that a carrier can require a covered patient with diabetes to pay for a 30-day supply of insulin at	
		House Life and Health	Coupons/Cost	\$100. This measure also requires the Department of Health and the Division of Consumer Affairs to study and investigate the pricing of	Sen. Katrina Robinson (D),
TN	SB 1718/HB 1832	Insurance Subcommittee		prescription insulin drugs and report findings to the legislature.	Rep. Vincent Dixie (D)
			_	This incustric regardes freditin benefit plans to cup the total amount that are missice is required to pay for missim at an amount not to	
				exceed \$30 per 30-day supply, regardless of the amount of type of insulin needed. The cap must be applied regardless of whether the	
				insured has met the plan's deductible. This cap does not apply to health plans that cover insulin under the lowest tier of drugs and does	
				not require an insured to meet a deductible before the plan will cover insulin at the lowest tier or to plans that cap the total amount an	
				enrollee is required to pay for at least one insulin in each category to \$100 per 30-day supply. This measure also does not apply to health	
				benefit plans that guarantee the enrollee will not pay more out-of-pocket for insulin through the plan than the insured would pay to	
				obtain insulin through the discount program this measure creates.	
				This bill establishes the insulin discount program, which will offer an insulin discount program that allows participants to purchase	
				insulin at a discounted, post-rebate price. The program will charge a price for insulin that allows the program to retain only enough of	
				any rebate for the insulin to make the state risk pool whole for providing discounted insulin to participants.
