## Notes

---

<sup>1</sup> As of federal fiscal year (FFY) 2017, 37 states report on the Centers for Medicare & Medicaid Services (CMS) Child Core Set measure for BMI Assessment. AL, AZ, AR, CA, ID, ME, MO, ND, OH, OR, SD, VT, WI, and WY do not report this measure. See the CMS 2018 Child Core Set Chart Pack, available at: <https://www.medicaid.gov/medicaid/quality-of-care/downloads/performance-measurement/2018-child-chart-pack.pdf>.

<sup>2</sup> As of FFY 2017, 41 states report on the CMS Child Core Set measure for Childhood Immunization Status; 42 states report on one or both of the CMS Child Core Set measures for Adolescent Immunization Status. AK, AR, AZ, ME, ND, OH, and SD do not report the three immunization measures. OR, TX, and WI do not report the childhood measure.

<sup>3</sup> As of FY 2017, 50 states report on the CMS Child Core Set measure for Percentage of Eligible who Received Preventive Dental Services. ID does not report.

<sup>4</sup> As of FY 2017, 49 states report on the CMS Child Core Set measures for Well Child Visits in the First 15 Months of Life, for Adolescent Well-Care Visits, and for Well Child Visits in the 3<sup>rd</sup>, 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> Years of Life. ND does not report any of these measures. CA does not report Well Child Visits in the First 15 Months of Life or Adolescent Well-Care Visits. SD does not report on Well-Child Visits in the 3<sup>rd</sup>, 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> Years of Life.

<sup>5</sup> Alaska has adopted the American Academy of Pediatrics (AAP) Bright Futures Guidelines for Preventive Pediatric Health Care in state regulation, the Alaska Administrative Code. With the passage of SB 74, the AK Health Care Reform Bill, in the 2016 Legislative Session, there will be opportunity to incorporate some of the CMS CHIPRA children's quality measures that AK currently reports to CMS at the state level into some of the proposed alternative payment models outlined in this legislation at the practice/system level.

<sup>6</sup> This measure addresses evidence-based behavioral health screenings and assessments for children.

<sup>7</sup> Medi-Cal managed care plans use the AAP Bright Futures periodicity schedule. Medi-Cal fee-for-service providers are currently transitioning from CHDP periodicity schedule to the AAP Bright Futures periodicity schedule.

<sup>8</sup> California has the following measures for dental managed care plans/providers: Annual dental visits, use of preventive services, use of sealants, count of sealants, count of fluoride varnishes, use of diagnostic services, treatment/prevention of caries, exams/oral health evaluations, use of dental treatment services, preventive services to fillings ratio, overall utilization of dental services – one year, overall utilization of dental services – two years, overall utilization of dental services – three years, continuity of care, and usual source of care.

<sup>17</sup> Incentive payments are available to dental providers as part of California's Dental Transformation Initiative. Incentive payments are for increased preventive services utilization for children, caries risk assessment and disease management, and increased continuity of care.

<sup>10</sup> 13 year olds who have received the meningococcal, TDap and HPV vaccines

<sup>11</sup> In contrast to almost all other Medicaid programs throughout the nation, Connecticut Medicaid is not using any managed care arrangements and is structured as a managed, fee-for-service program. The Department of Social Services contracts with 4 Administrative Services Organizations (ASOs) to administer medical, behavioral health, dental and non-emergency medical transportation services. ASOs administer our person-centered medical home (PCMH) and quality improvement program so and are, in turn, paid an incentive to create improvements in service that include continuously improved provider adherence to expectations such as Bright Futures.

<sup>12</sup> The ASO performance bonus measures the number of 13 year old adolescents with meningococcal, TDAP, and HPV vaccines.

<sup>13</sup> Annual dental visit and connection to dental services

<sup>14</sup> Annual dental visit and sealants

<sup>15</sup> At least one MCO has a PIP to increase preventive dental services inclusive of the provision of fluoride varnish during 2016.

<sup>16</sup> The *Handbook for Providers of Healthy Kids Services* (2015) adopts the Bright Futures periodicity schedule. The Bright Futures periodicity is used for CMS-416 calculations of the Line 10 participation ratio, as well as other lines, per CMS' guidance document. The handbook is incorporated by reference into MCO contracts. So, in addition to FFS providers, MCOs must follow the Bright Futures periodicity schedule as well as other handbook policies.

<sup>17</sup> Beginning in CY2020 CMS Health Home Core Set measure CDF-HH (Screening for Clinical Depression and Follow-Up Plan) becomes an annual incentive payment for MCOs and Integrated Health Homes; metabolic monitoring for children and adolescents on antipsychotics becomes an annual incentive payment for MCOs.

<sup>18</sup> Beginning in CY2020 HEDIS childhood immunization status becomes an annual incentive payment for MCOs and Integrated Health Homes, and immunizations for adolescents becomes a priority measure for MCOs.

<sup>19</sup> Beginning in 2020 HEDIS Annual Dental Visit becomes a priority measure for MCOs.

<sup>20</sup> Iowa uses the AAP Bright Futures periodicity schedule for measures related to Well-Child visits

- 
- <sup>21</sup> KanCare (Kansas Medicaid) Pay for Performance measure includes both Child and Adolescent Immunizations
- <sup>22</sup> 3 MCO PIPs for dental: a) Increasing Annual Dental Visits, b) 2016 Healthy Smiles, and c) Pediatric Oral Health
- <sup>23</sup> MCOs required to report the following HEDIS measure: Lead Screening in Children.
- <sup>24</sup> Annual dental visit
- <sup>25</sup> Maryland has a statewide ASO Carve-out for behavioral health and required depression screenings, along with a statewide ASO Carve-out for oral health.
- <sup>26</sup> **Maryland was awarded the CMMI Maternal Opioid Misuse (MOM) Model grant focused on pregnant and postpartum beneficiaries with opioid use disorder and their infants**
- <sup>27</sup> measure: Lead Screenings for Children Ages 12-23 Months.
- <sup>28</sup> This PIP targets both adults and children.
- <sup>29</sup> The pilot focuses on pediatric substance use disorder screening, intervention, and referral with incentives for achievement of milestones.
- <sup>30</sup> PIHP QI substance use disorder workgroup to create a recovery-oriented system of care with incentives for achievement of milestones.
- <sup>31</sup> Percentage of ACO Attributed Members under age 21 years who received a comprehensive or periodic oral evaluation as a dental service within the measurement period.
- <sup>32</sup> Annual dental visit
- <sup>33</sup> MCO PIPs must address obesity for children and adults. These PIPs may include preventive activities such as weight counseling.
- <sup>34</sup> Required MCO PIP for number of 2 year olds immunized
- <sup>35</sup> Each MCO defined “improving oral health” differently. Some aimed to improve number of dental chairs while others had goals such as mass distribution of toothbrushes.
- <sup>36</sup> This measure will be phased out in favor of HEDIS ratings, beginning July 1 2019.
- <sup>37</sup> Release of withheld capitation payment if MCO meets the measure.
- <sup>38</sup> Montana also participates in the US Centers for Disease Control and Prevention (CDC) Immunization Barrier Project. This project is funded by a CDC cooperative agreement. It aims for state Medicaid agencies to collaborate with public health and immunization information system partners to increase immunization rates among low-income children and pregnant women.
- <sup>39</sup> Adolescent Well-care Visits.
- <sup>40</sup> measure: Lead Screening in Children. MCOs required to report performance measures identified in RFPs, including a HEDIS measure on lead screening in children.
- <sup>41</sup> Combination 2: measures the percentage of children 2 years of age during 2016 who were given the required immunizations listed in Combination 2 by their second birthday. Combination 10: measure the percentage of children 2 years of age during 2016 who were given the immunizations listed in Combination 10 by their second birthday. (Childhood Immunization Status)
- <sup>42</sup> Provider BMI Incentive - \$10 will be paid, once per year, per member, Eligible members are ages 3 to 17.
- <sup>43</sup> Combination 2, 3, and 9
- <sup>44</sup> HEDIS measure: Preventative Oral Evaluations and Dental Services for Children and Adults.
- <sup>45</sup> Lead Screening Sanction if lead rates are below 80%. Between 80-60% a corrective action plan is required; below 60% is a refund of capitation paid.

- <sup>50</sup> North Carolina Medicaid operates in a FFS and Pediatric Medical Home environment. NC has implemented federal EPSDT medical necessity definition. In addition to required Lead Testing, autism screens, emotional/behavioral, and health risk screens (including BMI screening) are reimbursed in addition to the core reimbursement for the periodic visit. This includes maternal depression screens. Additional payments are also offered for vaccine administration, fluoride applications, and adolescent health risk screens.
- <sup>51</sup> Combination 2
- <sup>52</sup> HEDIS measure for lead screening for children in Medicaid reported on state Medicaid dashboard.
- <sup>53</sup> **measure for percent of children’s preventive dental visits**

- 
- <sup>54</sup> Behavioral health screening is a mandated service in PCMHs for ages 5 and above (quarterly incentive payment). While Bright Futures recommends depression screening beginning at age 11, Oklahoma Medicaid requires it at age 5.
- <sup>55</sup> The 4th DTaP incentive’s purpose is to improve the health of children by promoting immunization prior to the second birthday.
- <sup>56</sup> Annual dental visit
- <sup>57</sup> Oklahoma Medicaid uses the AAP Bright Futures periodicity schedule. Incentive payment to PCPs that meet or exceed the compliance rate for EPSDT screenings as well as incentivize PCPs to perform more initial and periodic screening services.
- <sup>58</sup> <http://www.okhca.org/about.aspx?id=22619>
- <sup>59</sup> (depression screening)
- <sup>60</sup> Relevant CCO Incentive measures include: Mental, physical, and dental health assessments within 60 days for children in state custody; Depression Screening and Follow Up Plan (not pediatric-specific);
- <sup>61</sup> Depression screening and follow-up plan
- <sup>62</sup> Dental Sealants on permanent molars for children; Mental, physical, and dental health assessments within 60 days for children in DHS custody
- <sup>63</sup> Mental, physical, and dental health assessments within 60 days for children in DHS custody
- <sup>64</sup> Well-child visits in the first 15 months of life
- <sup>65</sup> Annual dental visit
- <sup>66</sup> Annual Dental Visit, Ages 2 to 20 Years
- <sup>67</sup> Well-Child Visits in First 15 months of Life (6 or months visits) and Adolescent Well Care Visits.
- <sup>68</sup> Both MCOS chose the HEDIS Antidepressant Medication Management measure.
- <sup>69</sup> Childhood Immunization Status—Combination 3 and 10.
- <sup>70</sup> Well-Child Visits in the First 15 Months of Life (HEDIS measures)
- <sup>71</sup> Health Homes Community mental health centers utilizing tele-health for kids in need of behavioral health services. Collaboration with Juvenile Justice Services.
- <sup>72</sup> Data sharing between Medicaid Claims data and Department of Health Immunization Registry.
- <sup>73</sup> Dental Care Coordinators to outreach patients and get them in for dental check-ups. Care Coordinators are also outreaching dentists to try to expand the number of Medicaid dental providers.
- <sup>74</sup> Health Home Collaboration with WIC to improve well child care rates and share data
- <sup>75</sup> All of the contracted MCOs are required to submit a full set of HEDIS and CAHPS data to TennCare. The reports include PIP, Pop Health, EPSDT, dental and more.

- <sup>87</sup> There are multiple MCO PIPs for increasing well-child visits, increasing use of preventive dental services,

- 
- <sup>88</sup> This is a Pay-for-Quality (P4Q) measure on Childhood Immunization Status for CHIP. There are also dental P4P measures for Medicaid and CHIP on oral evaluations, fluoride for children with elevated caries risk, and sealants
- <sup>89</sup> Sealants, fluoride, and oral evaluation
- <sup>90</sup> Immunizations for Adolescents—Combination 1 (HEDIS). Childhood Immunization Status—Combination 3 (HEDIS)
- <sup>91</sup> Annual dental visit
- <sup>92</sup> This reflects Medallion 4.0 contract information, not Commonwealth Coordinated Care Plus, which serves children and adults with complex conditions.
- <sup>93</sup> For all measures in this row except developmental screening, Virginia Medicaid requires the MCOs to report on the measures. For developmental screening, it is not a “deliverable of the contractor;” the state tracks performance based on claims and encounter data.
- <sup>94</sup> Childhood Immunization Status.
- <sup>95</sup> Annual dental visit
- <sup>96</sup> Well-Child Visits in the First 15 Months of Life; Well Child Visits in the Third, Fourth, Fifth and Sixth Years of Life; Adolescent Well-Care Visits
- <sup>97</sup> Not a HEDIS measure captured in CMS 416
- <sup>98</sup> Annual dental visit
- <sup>99</sup> Well Child Visits in the Third, Fourth, Fifth and Sixth Years of Life
- <sup>100</sup> MCOs are required to conduct 3 PIPs, one of which must focus on improving well-child visit rates among infants, children and adolescents
- <sup>101</sup> Two MCOs did outreach related to lead screening.
- <sup>102</sup> BadgerCare+ HMOs only.
- <sup>103</sup> Wyoming is non-Medicaid managed care state. However, through the PCMH program, the state offers additional PMPM payments to providers if they “meet certain requirements, such as reporting clinical quality measures.”
